

Present Record of the Meeting - Pharmaceutical Science Congress

Victor S Dorodny

Founder and Chief Scientist, Naturopathy and traditional Medical Science (NEW™) Institute
California, USA, **Email:** Dorodny@medscape.com

A sincere gratitude to our keynote leaders, plenary leaders, industry participants, teachers, organizations, media representatives and visitors on behalf of the members of the conference committee for making Pharmaceutical Sciences a fruitful academic forum in 2019.

Between July 05-06, 2019- the 2nd International Conference and Exhibition on Pharmaceutics and Advanced Drug Delivery Systems was conducted at the Holiday Inn Paris organized by AAC in Paris, France. Benevolent response and active involvement were obtained from representatives of the Editorial Board representing Foreign Journals as well as from leading scientific scientists, academics, medical scholars, students and pharmaceutical industry experts who rendered this event a success.

The conference was distinguished by the participation of youthful and ambitious scholars, industry representatives and creative student groups from more than 5 nations, who have pushed this event into the road to success. The conference presented emerging retroviral studies across varied workshops.

Pharmaceutical Science 2019 experienced an amalgamation of peerless speakers who, in their expertise, educated the audience and addressed numerous new-cached topics relevant to pharmaceutical fields.

The conference participants shared their perspectives on the subject "Exploring the cutting & Futuristic Technologies in Pharmaceutical sciences & drug delivery systems." To the conference attendees it was both a reflective and insightful event.

AAC would like to express a deep gratitude to the session chairs / co-chairs and speakers who have rendered this science forum a tremendous success and a valuable experience for research participants, scholars, healthcare practitioners, industry representatives and industry citizens.

The conference was held through different meetings, in which the following relevant science tracks were discussed:

- Targeting & Designing
- Pharmacokinetics & Experiences with Medications
- Photographics
- Pharmacology

- Toxicology & Pharmacology
- Aspects of Pre-formulation & Formulation
- Clinical Pharmacy Research
- Pharmaceutical Market
- Biotechnology & Microbiology
- Regulations & Standards
- Pharmaceutical & Pharmaceutical Science
- Enhanced Clinical Recovery
- Radiopharmaceutics & Biotherapy
- Gene & Cell Therapy
- Phytotherapy & the administration of medications
- Drug Distribution Issues
- Advances of Studies into Product Distribution
- Nanotechnology Pharmaceuticals
- Nanotechnology & Medication Carrier Programs
- Novel Drug Distribution System
- Targeted program for the distribution of medications
- Specific Medication Distribution Methods
- The processing of peptides & proteins
- Pharmacovigilance & Health of Drugs
- Enhanced Medication Distribution Programs

Attendees to the conference were honored and thanked with certificates and prizes at the recognition and closing ceremony. The conference discussions were held by separate Scientific-sessions and plenary lectures. The conference started with an opening ceremony accompanied by a series of lectures offered by both Honored Guests and keynote forum leaders.

The meeting features were the keynote addresses that were selected from:

Hayley Lewis | Zosano Pharma Corporation | USA
Christophe A Serra | University of Strasbourg | France
James E Trosko | Michigan State University | USA
Marilena Vlachou | National and Kapodistrian University of Athens | Greece
William Whitford | GE Healthcare | USA
Swarnlata Saraf | Pt Ravishankar Shukla University | India
Saleh Alamri | Prince Sultan Military Medical City, KSA

The event highlighted numerous pharmaceutical areas and the plenary lectures delivered by speakers from different universities and organizations, such as

London Bio Science Research Center | Britain
Greenwich University | UK
UCL Pharmacy Clinic
Sorocaba University | Brasil
University of Bangor | UK
Guyana University | Guyana
University of Loughborough | UK
At Strathclyde University | UK
European Radiation Synchrotrons Plant | France
China's computer science and development university
Haptic Infrastructure | Poland

We are also indebted to numerous experts from speakers, executives from corporations and other prominent personalities who sponsored the conference by promoting constructive platforms for debate. We deeply thank the leaders of the Organizing Committee for their generous participation, encouragement and contribute for Pharmaceutical Sciences progress in 2019.

Allied Academies were pleased to declare, with the tremendous success of Pharmaceutical Research 2019, the "**3rd International Conference & Exhibition on Pharmaceutics and Advanced Drug Delivery Systems**" to be held in Paris , France from February 05 to February 06, 2021.
